

SPONSORSHIP PACKAGE

CEST 2019

4th to 7th September 2019, Rhodes Island, Greece

16th International Conference on Environmental Science and Technology

cest.gnest.org

ABOUT

On behalf of the Organizing and Scientific Committees, we are happy to announce the organization of the 16th International Conference on Environmental Science and Technology (CEST2019). The conference will be held in the island of Rhodes, Greece from 4th to 7th September 2019.

The conference is supported by the University of the Aegean (Greece), together with the University of Salerno (Italy) and the Imperial College London (UK). The main organizer is the multi-disciplinary [Global NEST](#) (Network of Environmental Science and Technology); an international scientific movement that has been successfully developing for the last 30 years with members from more than 60 countries.

Global NEST is an international scientific movement focusing on innovative environmental issues.

CEST SERIES

The International Conference on Environmental Science and Technology is the largest environmental conference in Greece and has grown into a major international scientific event bringing together over 400 delegates from 60 different countries. The previous conferences have been very successful, and the participants have provided us with an excellent evaluation. CEST2017 was the event with the biggest participation since the conference has been launched. It was co-organized with the South Aegean Region and now we are heading towards CEST2019, which coincides with the celebration of the 30th anniversary (1989-2019) of CEST series.

Prince Sultan Bin Abdulaziz International Prize for Water, was the Platinum Sponsor of CEST2017 following the sponsorships provided in 2013 and 2015. PSIPW aims to give recognition to the efforts that scientists, inventors and research organizations around the world are making in water related fields. PSIPW acknowledges exceptional and innovative work which contributes to the sustainable availability of potable water and the alleviation of the escalating global problem of water scarcity. For this reason, PSIPW awards a suite of five bi-annual prizes, covering the entire water research landscape.

South Aegean Region has acted as a co-organizer in CEST2017, thus connecting the event with the local stakeholders.

The main aim of the conference is the presentation of state-of-the art research and innovative technologies to address local and international critical environmental issues. A wide range of topics are presented while addressing the new opportunities for the emerging science-policy interface promoting the dialogue between the scientific and policy-making communities.

New Issues

- New impacts (disturbance, new forest cover, etc.)
- Climate Change - drought
- Growing populations, water scarcity
- New water resources
 - Transboundary water
 - Desalination

15th International
Conference
on
Water
Resources
Management
and
Policy
2015
10-14 November
2015
Beijing, China

Thematic areas

- 
- ☐ Water and wastewater treatment technologies
 - ☐ Atmospheric sciences
 - ☐ Water-Energy Nexus
 - ☐ Smart cities for a sustainable development
 - ☐ Solid Waste Management and Biowaste
 - ☐ Emerging pollutants
 - ☐ Hazardous waste management
 - ☐ Energy technologies and sustainability
 - ☐ Environmental data analysis and modelling
 - ☐ Environmental management and policies
 - ☐ Hydrology and water resources management
 - ☐ Marine environment and coastal management
 - ☐ Soil contamination and remediation
 - ☐ Green chemistry

Who will attend?

- Policy and decision makers
- Thought leaders
- Government officials
- Top managers (CEOs, Vice-Presidents, Directors, GMs)
- Academics
- Researchers
- Students
- Engineers and scientists
- Entrepreneurs and business owners

Why sponsoring CEST2019?

- To support our research on
 - ✓ circular economy strategy and material flow management
 - ✓ the development of municipal solid waste management sustainable solutions
 - ✓ the adoption of technologies and methodologies for efficient use of resources in tourism
- To promote your company in targeted audiences
- To expand your professional networks
- To connect with future research and development partners
- To train your staff
- To be recognized as a forward-thinking company
